Skills

Technical

- Intermediate knowledge of Python and C, and introductory knowledge of Java developed throughout Gr. 12 and university computer science courses
- Moderate web design experience: applied knowledge of HTML and CSS while volunteering for a start-up company
- Strong independent learner, self taught Java, HTML, CSS, C, as well as other tools such as Git. Able to learn new skills in order to quickly adapt to new workplace environments
- Competent software/hardware technological aptitude: able to pick up new software with ease, and developed when I built a custom desktop computer

Interpersonal

- Effective leadership skills developed through 4 years as a supervisor/leader at summer camps and daycare, overseeing dozens of children at a time
- Strong readiness for teamwork/cooperation developed through years of team sports, as a team member of camp leaders, and dozens of group projects in school
- Confident in seeking input to perfectly execute the tasks at hand, a skill developed through volunteering for a tech start-up company and working on its website
